## BOOST CHEMICAL SALES, MAXIMIZE PRODUCT MIX AND INCREASE CAPACITY

VersaChemical is constructed of heavy duty coated shelves, with the industry leading patented Best Glides Ever® glide sheet, reducing friction and ensuring maximum product flow. Designed with minimal surface area to prevent build-up created by leakage, it adds to store sanitation while providing an attractive display. Built with a spill management system of dual glide sheets and drip trays for minimized clean up time.

### Maximize shelf capacity

B-O-F Gravity Flow Shelving maximizes merchandising space for increased sales. With industry-leading pack-outs of 27", 36", & 48" depths available, you keep more product in front of the customer while reducing out-of-stock appearances.

### PERFECT FOR CENTER STORE DISPLAYS

Designed to handle your most demanding jobs, our Gravity Flow Shelving works with your heaviest merchandise and reaches greater depths than any other product on the market.

Minimizing chemical spills  
getting to the shopper is key.
