Versa-EggMoover®

With the **Best Glides Ever®** technology

THE MOST TRUSTED EGG MERCHANDISER IN THE GROCERY INDUSTRY

The Versa-EggMoover is constructed of heavy duty coated shelves, with the industry leading patented Best Glides Ever® glide sheets, reducing friction and ensuring maximum flow. Designed with minimal surface area to prevent build-up created by leakage, it adds to cooler sanitation while providing an attractive display.

Increase sales by maximizing shelf space

Designed to utilize the full width of your doors, adding up to 15% more facings for easier brand identification.

Decrease waste

Automatic first-in-first-out product rotation minimizes waste in the dairy cooler by having older products in a sellable position, helping to manage product expiration dates.

Increase customer experience with improved cleanliness

Built with a spill management system of glide sheets and drip trays for minimized clean up time.

Customizable

Built to your exact spec and plan-o-gram to eliminate set up time, the dividers are adjustable in 1/8" increments to adapt to any future product configuration and any package size.

UPGRADE YOUR DAIRY COOLER

Increase sales in the most profitable section per square foot in a grocery store by maximizing your existing cooler space. The Versa-EggMoover is built to last and will pay for itself within 8 months through increase sales, decreasing labor, and enhanced customer experience.
